Introduction

Welcome to the Resonance Communications Brand Guidelines

This document defines how **Resonance Communications** presents itself across every touchpoint, ensuring consistency, clarity, and recognition throughout the brand.

Resonance Communications is an integrated strategic communications and media company that brings together strategic communication, storytelling, media production, brand strategy, and event experiences. It helps institutions transform ideas into meaningful communication, stronger connections, influence, and lasting impact.

Inspired by the **principle of resonance**, the brand represents the point at which an idea connects with people, gains momentum, and creates a response beyond its original source. From strategy and storytelling to media and live experiences, RCs brings different capabilities together to help ideas move with greater clarity and impact.

At its core, Resonance Communications stands for precision, intelligence, creativity, and results. These guidelines ensure every expression of the brand reflects these qualities consistently and strengthens the RCs identity across every communication, experience, and interaction.

Discovery & Research

Brand Overview

Resonance Communications (RCs) is a strategic communications and media company that transforms ideas into meaningful connections, influence, and impact.

Bringing together strategic communication, storytelling, media production, brand strategy, and event experiences, RCs helps institutions communicate what matters with greater clarity, relevance, and resonance.

At its core, RCs believes that an idea becomes powerful when it connects with people. The brand therefore sits at the intersection of **strategic depth and expressive energy:** understanding the idea, finding its signal, and creating the conditions for it to be heard, understood, and acted upon.

RCs is professional and precise without being rigid, creative without being chaotic, and ambitious without losing its sense of purpose.

The idea is the starting point. Resonance is the force that moves it forward.

Brand Essence & Purpose

Brand Essence

At the heart of Resonance Communications is the belief that an idea reaches its true potential when it connects with people and creates a response. RCs brings strategy, creativity, storytelling, media, and event experiences together to amplify ideas into meaningful influence and lasting impact.

Brand Purpose

Resonance Communications exists to help institutions communicate their visions in ways that people understand, connect with, and act upon. Through strategic thinking, precise execution, and purposeful storytelling, RCs transforms communication from simply delivering messages into creating meaningful change.

Brand Vision & Mission

Brand Personality

Resonance Communications is **confident, intelligent, detail-oriented, and results-driven**. It combines the discipline and precision of a serious professional organization with the creativity and strategic thinking required to turn ideas into meaningful communication and experiences.

The brand is professional without being rigid, and creative without being unpredictable. It is meticulous in its preparation, proactive in anticipating challenges, and focused on delivering outcomes rather than simply completing tasks. RCs communicates with clarity and quiet confidence, taking ownership of every detail while keeping sight of the bigger objective: **creating communication that resonates and produces real impact.**

Concept

This mark reduces R and C, the initials of Resonance Communications, into a single geometric symbol. The two forms face and respond to one another, creating a sense of exchange, connection, and continuity.

Rather than representing communication literally, the mark captures its underlying principle: two distinct elements becoming connected through interaction. The resulting form is simple, distinctive, and capable of standing independently from the full wordmark.

Bricolage Grotesque is the primary typeface of RCS, defining the brand’s distinctive visual character. Its expressive forms and contemporary personality bring recognition and individuality to brand communications. Use it for headlines, titles, key messages, and other prominent brand applications to establish a consistent and recognizable typographic identity.

SECONDARY TYPEFACE

IBM Plex Sans

AaBb

AaBbCcDdEeFfGgHhIiJjKkLlMmNnOoPpQqRrSsTtUuVvWwXxYyZz
0123456789

IBM Plex Sans is the secondary typeface, selected for its clarity, legibility, and functional versatility. It supports the primary typeface by ensuring a comfortable reading experience across longer texts and information-heavy layouts. Use it for body copy, paragraphs, captions, and supporting information where readability and clear communication are essential.

ተ ቱ ቲ ታ ቴ ት ቶ
ቸ ቹ ቺ ቻ ቼ ች ቾ

Nokia Pure Headline is the designated Amharic typeface for RCS, ensuring a consistent and recognizable brand presence across Amharic-language communications. Its clean, contemporary letterforms complement the Latin typeface system while maintaining clarity and readability. Use it for Amharic headlines, titles, and key messages, ensuring a cohesive visual identity across languages.

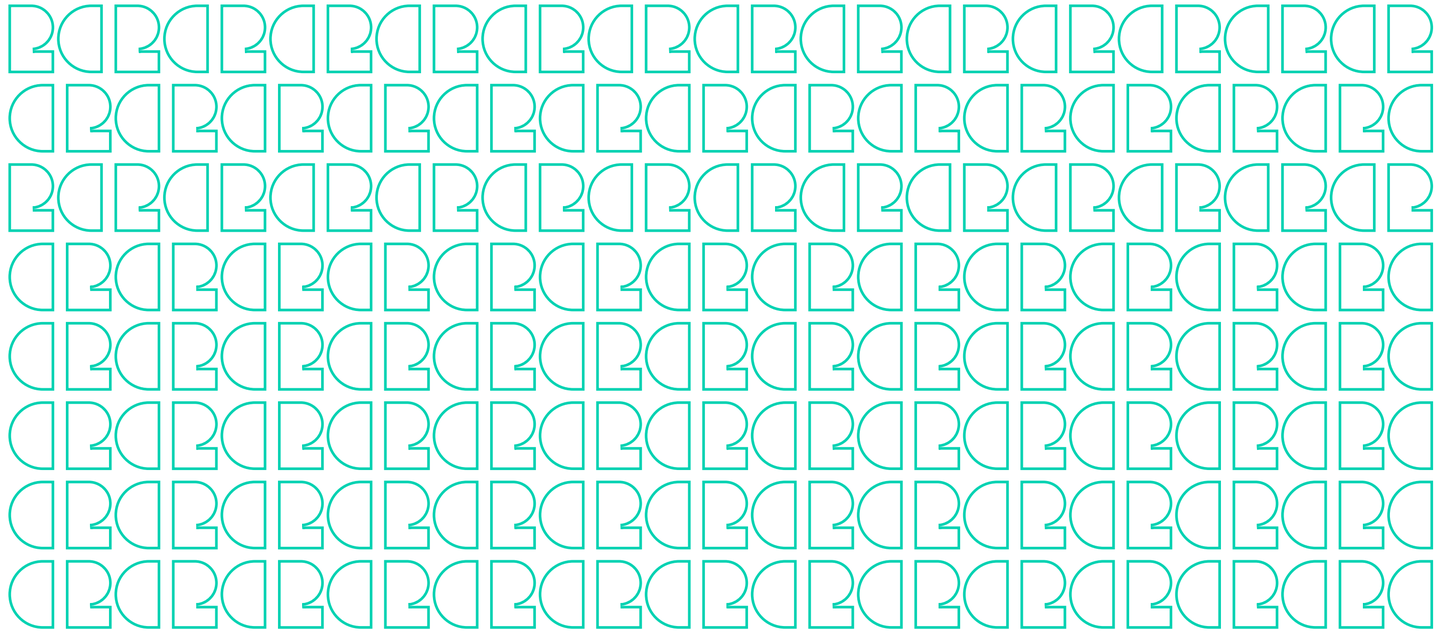
Visual Language

sequoia
CREATIVE STUDIO

Signal Field Pattern

The Signal Field is the primary static pattern of the RCs identity. It is used to create branded environments, surfaces and supporting graphic texture across physical and printed applications.

The pattern should remain light, spacious and secondary to content. Its strength comes from repetition rather than density.



Purpose

The primary static pattern, representing connection, continuity, and the accumulation of individual signals into a larger field.

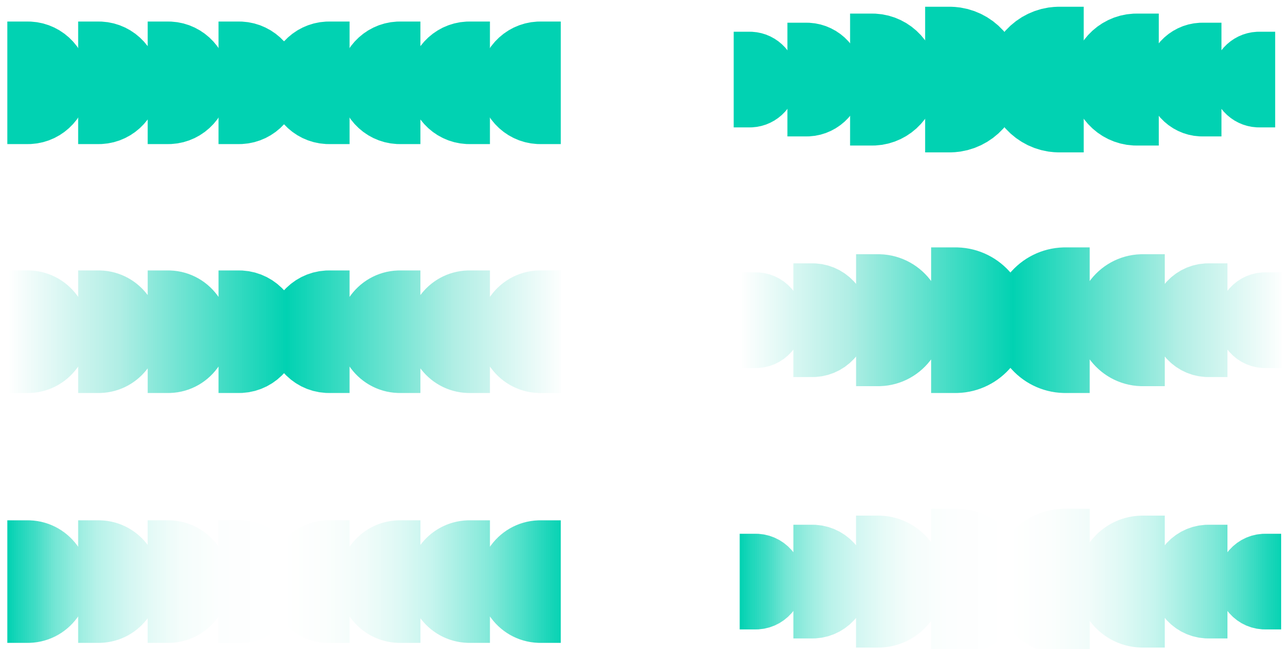
Application

Used primarily across stationery, printed materials, environmental graphics, walls, event materials, and other physical brand applications.

Usage

Use as a subtle supporting element rather than a dominant graphic. It may be cropped, repeated, or extended across a surface while maintaining consistent spacing and proportions.

Resonance Flow



Resonance Flow is the dynamic expression of the RCs visual language. It is primarily designed for digital and motion environments where the identity can demonstrate movement, rhythm and amplification.

Unlike the Resonance Field, this pattern should not simply be placed as a static decoration everywhere. Its greatest value comes from movement, transition and controlled repetition.

Purpose

The dynamic expression of the identity, representing movement, connection, and the transmission of ideas through resonance.

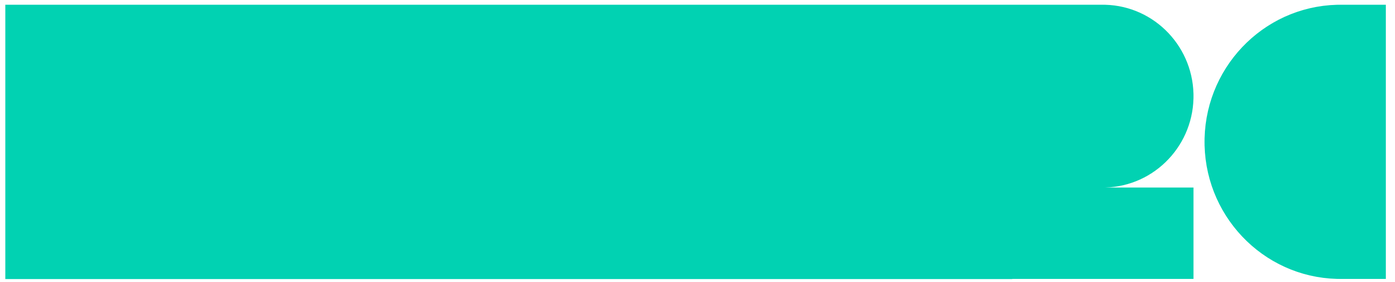
Application

Used primarily for digital and motion applications including screen animations, holding screens, event displays, video graphics, and digital presentations.

Usage

Best expressed through movement, transitions, and controlled changes in intensity. When used statically, keep it subtle and use selected portions of the pattern rather than the full sequence.

Resonance Carrier



The Resonance Carrier is a functional graphic device used to frame, identify or introduce information.

Its distinctive construction combines a solid horizontal form with the characteristic cut/rounded termination derived from the RCs visual language.

It should be used wherever information needs to feel identified, connected and intentionally presented.

Purpose

A functional graphic device that carries, frames, or emphasizes information within the RCs visual language.

Application

Used for lower thirds, speaker identification, titles, section labels, event screens, signage, presentations, and other information-led applications.

Usage

Always use it in relation to content. Maintain its distinctive horizontal form and terminal shape, allowing it to scale according to the amount and hierarchy of information being presented.

Photography Direction

RCs photography should feel confident, intelligent, precise, and human. Prioritize authentic moments, intentional compositions, and strong visual clarity over staged corporate imagery.

01. Black & White

Use black and white as the dominant treatment for a timeless, editorial feel. Introduce RCs teal selectively through graphic elements, typography, screens, and environmental details. Full-color photography will also be used when it better captures the atmosphere, authenticity, and energy of an experience.

02. Close-Up & Detail

Capture people, equipment, gestures, and production details that communicate precision, expertise, and human involvement.

03. Establishing & Scale

Use wider shots to show event spaces, audiences, stages, and the experiences RCs brings to life.

04. Brand Color Overlay

Use RCs signature teal as an overlay on selected photographs to create a distinctive, brand-led visual treatment. Adjust opacity to maintain image clarity and detail, using this approach selectively for campaign visuals and promotional materials where stronger brand recognition is desired.

05. Human & Authentic

Prioritize genuine interaction, collaboration, concentration, movement, and audience engagement over posed expressions.

06. Composition & Lighting

Favor clean framing, negative space, strong geometry, and directional lighting. Maintain rich blacks, clear highlights, and natural detail.

Guiding Principle

Capture the people, precision, and environments behind meaningful experiences. Keep photography restrained, allowing RCs teal to become the signature visual signal.
